4 Quadrant Expandable/ Collapsible Magnetic Parts Tray

A unique collapsing design allows for low profile storage, coupled with versatility to expand and securely hold parts. Using a high-tensile silica material, these trays will hold up to the harshest conditions and are impervious to most automotive fluids. The inside base plate is made of polypropylene plastic which integrates five strong neodymium magnets. The magnets secure ferrous metal parts to the inside of the tray. A secondary benefit of the base plate is that it will stick to most metal surfaces through the bottom of the tray. Quad measures 9" x 9" and has four 4.5" compartments that expand from 0.75" to 2" deep.

1/4", 3/8" & 1/2" Drive Magnetic Socket Tray

Aluminum rail features a low profile design with integrated Neodymium magnets that hold sockets firmly in place to prevent sliding as toolbox drawers are opened and closed. Sockets are easily removed with a slight tilt and lift. Additional 1/4", 3/8" or 1/2" studs (sold separately) can be added to create a customized rail configuration.
